Characteristics of CriptoBridge

- Multinational trade market and relatively new, capable languages are English, Spanish, Korean and Japanese
- There are 2 kinds of interfaces are available, WEB base and Client base, Client is lighter but sometimes order cannot go through, then you should reload or change node form "settings>Access".
- **DO NOT forget account name and secret key generated at registration time, written down to secure environment is recommended. If you lost secret key, you would never be able to login again.**
- Performance is good but sometime page reflection takes time.
- NEETCOIN Project team has confiemed CryptoBridge, other than NEETCOIN, with BTC, MONA, and ZNY for making deposit and withdraw it.
- Balance reflection takes a while, handling fee depends on kind of crypto currency but 0.2%, applicable on cancellation too.
- Due to characteristics of DEX, please be careful for making orders.
- You have to use CryptoBridge at your own risk, NEETCOIN Project will not have any responsibility on any loss, trouble, or issues by using CryptoBridge, please be very careful about it.

NEETCOIN Project has communicated with CrypoBridge team so we may be able to contact them directly but basically the users have to settle down any issue or queries directly, NEETCOIN Project will not have any obligations to support such activities.
