

## □NEETCOIN INFORMATION. 20180124

2018/01/24  
NEETCOIN Project

Dear all NEET and non NEET, this is NEETCOIN Project.  
We would like to give update and notifications for you.

### (1) Exchange listing : coinhouse.eu

We have been getting this frequent question “where is the exchange?” from the users, and finally managed to be listed on the exchange. While it is not the most famous exchange, this is a celebratory occasion and we much appreciate the administration of coinhouse.eu team. Due to its limited trading volumes, current average price is around 10000 satoshis. We are not certain if this price will remain or go up or down.

### (2) Airdrop 2

We’re delaying the airdrop 2 to plan an event related to the voting for an exchange. There is no limit to who can register, even if you have received Airdrop #1, you may join as well. For those of you who missed out Airdrop 1, we will re-open the registration for the existing airdrop #1 system, so you may receive Airdrop 1. Once we’ve successfully listed on an exchange, we may consider distributing extra coins. We have had an increase in supporters for the project and expected to distribute even more than Airdrop #1. FYI, Airdrop 1 have distributed 100,000 NEET.

### (3) Mobile wallet

We’re currently running the bounty program to setup Insight Explorer. This is a service that will be used to interact with the mobile wallet. Once it is complete, we will be progressing to the mobile wallet development.

### (4) Negotiating with an Exchange and an appeal.

As per (2), and Airdrop 2, the team is negotiating with several exchanges so that we will have more exchanges to be able to trade with. During the negotiation, we have found out that while many are happy to greet you with open arms, they demanded a payment. We expect some form of costs to be listed but when the costs are 0.5, 2, 4 BTC, even with some donations that we’ve received, it was not enough nor are there any guarantees they. We would not like to waste the precious donations nor fail to list it, so we’re being extra careful during these negotiations and It is only making progress slow.

We understand that there are criticism from the users. However if you would like us to be listed on a certain exchange, it may be better for you to directly make a request to them as well.

(5) Bounty Program : Promotional Video

We've announced the bounty for a provisional video for the NEETCOIN. While we do not specify the content of the video, please read #bounty-and-guidelines channel on our Discord for further information.

Bounties would be around 50-500+ NEET, depends on the quality.

Images and Logos can be used and also on the bounty channel.

(6) Personification Character Contest is almost at the end

We've currently received 14 submissions, entries are allowed until 31<sup>st</sup> Jan 2018. 1<sup>st</sup> prize is 2100NEET and at current exchange rate its over a few thousand dollars (or several 100,000 yen). Rate may change but the prize is significant. We're at the NEETCOIN project is very keen for every entries.

(7) Amount of NEETCOIN owned by the project team.

While the initial amount has been announced, there are several requests to know how much the team still has. We're certainly trying to transparent with the amount, but request seems to be more based on the delay on Airdrop 2. As per (2) and (4), please wait for further update.

(8) Plan to use NEETCOIN on real services or goods.

While the details are yet to be finalised, we're planning to have a place that you may purchase a goods or services with NEETCOIN. Previsouly there was a person who have purchased a sandwich with 21 NEET. We believe the point is where you can purchase a real goods or services with NEET and if you're able to attend or join the event, please do so in the near future.
